Board of Park Commissioners
Centerville-Washington Park District
221 N. Main St.
Centerville, OH 45459

Dear Commissioners,

We wanted to personally inform you that the University of Toledo final report has been received by the Washington Township Board of Trustees. Our board acknowledged receipt of the report at a July 7 public meeting and the township has since posted it on our web site.

We were surprised and disappointed to see that the Centerville-Washington Park District was included in the final report because it has always been our intent to fund a study that encompassed only the city and the township. Accordingly, the park district was not mentioned in the scope of work authorized by Washington Township and Centerville to guide the study.

In keeping with the wishes expressed by park commissioners at the March 31 draft presentation, Washington Township contacted the University of Toledo to ask that the park district be removed from the report.

On behalf of Washington Township trustees, I would like to convey our apologies that the Centerville-Washington Park District was included in the UT report against the park board's wishes. We will continue to work with the university to discuss issues within the report, and we will reiterate our objection that the park district was included.

Sincerely,

Joyce C. Young
President

Terry L. Blair
